Directions for the Open-Ended Questions

The following questions are open-ended questions. Remember to:

- Read each question carefully and think about the answer.
- Answer all the parts of the questions.
- Show your work or explain your answers.

You can answer the questions by using words, tables, diagrams, OR pictures. You may use your calculator, ruler, and colored shapes.

- - 24. Maria is making apple pies for a party. She bought 3 bags of apples. Each bag has 12 apples. She needs 8 apples to make each pie.
 - What is the greatest number of pies Maria can make? Show your work or explain your answer.
 - How many more bags of apples does Maria need to buy in order to make a total of 6 pies? Show your work or explain your answer.

25. Look at the map below.

Abby left her house and followed this list of directions:

- 1. Walk two blocks west.
- 2. Walk three blocks north.
- 3. Walk four blocks east.
- 4. Walk one block north.
- Use the map to help you list all of the places Abby passed on her walk, including the place where she ended her walk.

After school, Bryan is going to Abby's house to trade cards. He wants to stop at home first to get his trading cards.

 Make a list of directions that Bryan can follow to walk from school to his house and then to Abby's house.
